

## DEGREEWORKS GPA CALCULATORS

### OVERVIEW

DegreeWorks is our online degree audit program with numerous tools to help students with academic planning. The available GPA Calculators help students set grade goals or determine how estimated course grades will impact their cumulative GPA. Review each option to find the one that best fits your needs.

### COURSE REPEAT POLICY

For a student who earned a grade of C-, D, F, WF, or FN in a course and repeats the course, the cumulative grade point average will reflect the higher grade, although both grades will remain on the transcript.

These tools do not take repeat courses into account. If you plan to repeat a course in accordance with the above policy, please speak to your advisor for additional guidance.

### GRADUATION CALCULATOR

The Graduation Calculator will determine the average grade you need to achieve in all of your remaining credits to achieve a target GPA by the end of your program.

1. Log-in to OASIS
2. Click on "Student"
3. Click on "DegreeWorks"
4. Click the "GPA Calc" tab near the top of the page
5. Complete the form

<b>Current GPA</b>	1.827	(automatically populated)
<b>Credits Remaining</b>		= total number of credits left to take
<b>Credits Required</b>		= 120 credits required for graduation
<b>Desired GPA</b>		= your target GPA

6. Click the "Calculate" button

If the average generated is above a 4.0, then the goal you have outlined in the calculator is not attainable. Reevaluate and try again.

### TERM CALCULATOR

The Term Calculator allows you to get an estimated end of semester cumulative GPA based on your projected grades for currently enrolled courses.

1. Log-in to OASIS
2. Click on "Student"
3. Click on "DegreeWorks"
4. Click the "GPA Calc" tab near the top of the page
5. Click on "Term Calculator" to the left below the "Worksheets" tab notch  
The form automatically populates with the courses you are currently enrolled in for the semester
6. Select your estimated grade for each course of your current semester
7. Click the "Calculate" button

### ADVICE CALCULATOR

The Advice Calculator will tell you how many credits you need to complete at a certain grade average to achieve a target GPA.

Bear in mind that the calculations are exact. If the results state you need to complete 11 credits at a B+ average to achieve the stated target GPA, then it means completing exactly 11 credits all at a B+ will generate that target GPA as a final result. If you are currently enrolled in more than 11 credits, then the additional credits will have an effect on your end result.

1. Log-in to OASIS
2. Click on "Student"
3. Click on "DegreeWorks"
4. Click the "GPA Calc" tab near the top of the page
5. Click on "Advice Calculator" to the left below the "Worksheets" tab notch  
The form automatically populates with your current cumulative GPA and the number of credits you are currently enrolled in
6. Enter in your "Desired GPA"
7. Click the "Calculate" button

### LETTER GRADE TO POINT SCALE CONVERSION

A = 4.000	B+ = 3.333	C+ = 2.333	D+ = 1.333	F, FN, WF =
A- = 3.667	B = 3.000	C = 2.000	D = 1.000	0.000
	B- = 2.667	C- = 1.667	D- = 0.667
