### OVERVIEW

The Week at a Glance provides a weekly grid view of your individual class meeting sessions. With the days of the week across the top and the hours of the day along the left side, you can get a quick overview of what your week will look like. Course blocks include the course code, Course Registration Number, meeting time, and meeting building and room number.

#### SPECIAL NOTES:

- Courses that only run for a portion of the semester (such as 1/2 credit HHP activity courses) will only be visible during the appropriate date range.
- HYPE Sessions are listed on the Sunday of the week of the HYPE day. This avoids coding conflicts within the scheduling program.
