

NURSING - BSN (1-2-1 Program with Terra State)¹

Program Learning Outcomes (PLOs):

1. Navigate complex patient situations, using concepts and knowledge from the Liberal Arts, essential elements of baccalaureate nursing education, and professional standards of care.
2. Promote safety and quality in the provision of care to populations throughout the lifespan.
3. Appraise nursing research and theory application to guide best practices of patient care.
4. Use patient care technologies and information management to promote health, identify health alterations, and manage complex health situations across disciplines.
5. Serve as leaders in advocating for new processes, policies, and regulation changes that improve client outcomes and local and global health care delivery systems.
6. Communicate to collaborate across healthcare disciplines to provide comprehensive care that promotes health and wellness.
7. Promote interventions regarding health promotion and disease prevention of individual clients, families, and groups in order to provide holistic care to persons across diverse populations.
8. Apply learning values, personal values, and professional practice values that promote continuous quality improvement processes and excellence in care delivery.
9. Incorporate essential elements of baccalaureate nursing education, professional standards, and evidence-based knowledge as a basis for critical thinking, clinical judgement, decision making, and reflective practice.
